## Infant Program

When your baby's in the right place, you just know. At West Virginia University Child Learning Center, they'll spend time in classrooms made for exploring with teachers who support today's milestones and tomorrow's leaps toward the future.

**And we're here for you, too,** with carefully planned hours, a convenient location by West Virginia University, close-knit center community, and parenting resources.

### Program highlights include:

- An assigned primary teacher for one-to-one moments of caring, play, and communication
- Sensory-rich spaces and soft places to explore, roll over, pull up, and crawl
- Personalized care plans that honor your family's routine and support daily schedules, nutritional guidelines, and other unique needs
- Daily exposure to the arts, books, and the outdoors, as well as basic sign language to communicate needs

**One-of-a-kind care for your one-of-a-kind child — learn more.**
